

The Sinclair Group's License should be reviewed!

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is a clear example of the dangers of media consolidation.

Sinclair uses the public airwaves free of charge! The station is obligated by law to serve the public interest. But when large companies control the airwaves, we get what's good for their balance sheet and not what we need for our democracy. It is more important that we see real people from our own communities and more substantive news about issues that matter. With an unbiased and constructive purpose.

Sinclair's actions show why we need to strengthen media ownership rules! They show why the license renewal process needs to involve more than a returned postcard. Thank you.
